	stated that with specifically stated Mr. Ruediger potathis point. In	Separation Compensation, he respect to the appeal in paragraph 3a it would be well to ate to whom the appeal is made and to set a time limit. inted out that they have gotten in trouble in the courts on would suggest that the appeal be to the Director and that	25X1 <i>F</i>

- stated that with respect to the appeal in paragraph 3s it would be well to specifically state to whom the appeal is made and to set a time limit. Mr. Ruediger pointed out that they have gotten in trouble in the courts on this point. I would suggest that the appeal be to the Director and that it be made within a period of, say, 180 days. Mr. Ruediger was a little confused with paragraph 4 entitled "Responsibilities" and I must admit that I am too. We both feel that this could well be included as subparagraph 3d. His final comment, which had to do with paragraph 5, was the suggestion that the word "basic" be placed in front of the word "salary" in computing separation compensation in order that there be no misunderstanding with respect to the inclusion of allowances, overtime, etc. He felt, however, that basically a separation compensation regulation is one which should be cleared with the General Accounting Office or the Bureau of the Budget.
- 5. I think that all of Mr. Ruediger's points have a valid basis and should be adopted. I was unable to see Mr. Melcy, the General Counsel, due to the fact that he was tied up but I asked that our appreciation be expressed for the assistance his office has given us in connection withe these Regulations.
